Prof Jany Haddad (humanitarian aid distributor; **UPDATE:** wrote "On Sunday service morning at Emanuel Armenian Evangelical church, just after the general service there was a youth gathering, it was concluded just around 11:45-11:50, and the attack was just when the leader of the youth went out of the church. We are very grateful to my Lord's protection and guidance. Otherwise, the number of deaths and wounded Christians were going to be in tens and hundreds...Still as you know, the weather is getting cold more due to a windy snow storm. Still no fuel, no heating system, and since more than four months no electricity to cover some heating needs. Gas cylinders are rare and rocketing in the prices...Daily, there are people admitted to hospitals, private and general, with H1N1 [avian] flu and daily we hear about one or two deaths. In spite the government has, generously, providing vaccine to everyone who needs it, but the epidemic is still active and spreading like crazy horse. No control. The pollution rate increasing and no control for it as well")

India: New Delhi

Joseph Dias (**UPDATE:** said of a report on Christian persecution in India "There is at least a 20% increase in the incidents in terms of the number of people victimized as against 2014. The real numbers are much higher as many don't want to report such incidents as the police force is communal. Then we have incidents from areas where RSS [paramilitary] is very dominant and victims are threatened to not report the attacks. In some cases the media is also biased. Being less in number, Christians can't fight back...With the BJP government in the center, there is huge increase in RSS shakhas [Hindu religious schools]. Even though there is no BJP government in Kerala, the state has the highest number of shakhas. West Bengal, which has long been under communist rule and is now governed by liberal forces, BJP has a strong hold over five districts where reconversions are picking up. There is saffronization of secular institution and in every sphere secular activities have been saffronized - be it in the northeast, Tamil Nadu, Kerala or Goa")
